## BATTERY INSTALLATION

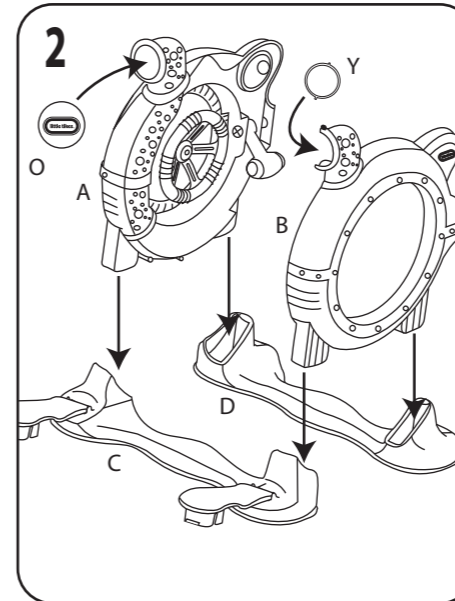

- Prior to playing, an adult must install fresh alkaline batteries (not included). Here's how:
- Using a Phillips screwdriver (not included) remove the screw and battery compartment cover from the bottom of the octopus handle.
  - Insert two (2) AA alkaline batteries (not included) making sure the (+) and (-) ends face the proper direction as indicated inside the battery compartment.
  - Replace the compartment cover and tighten the screw.

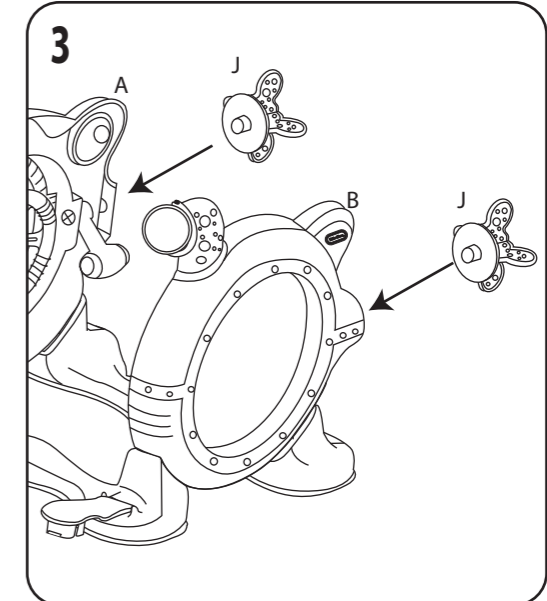

## SUBMARINE ASSEMBLY

1. Snap two connectors (E) onto the rear submarine base (C).

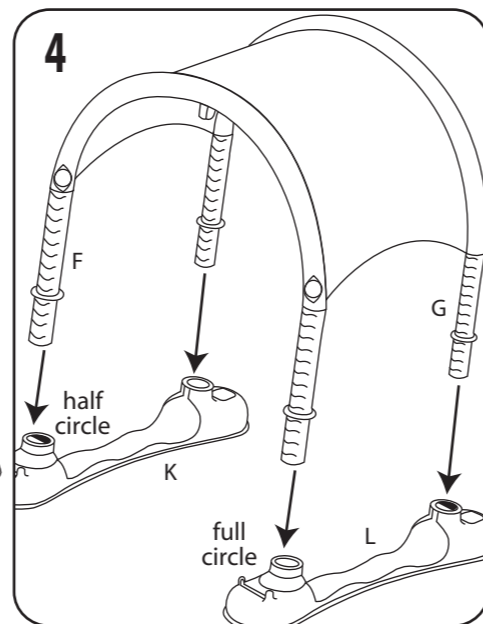

2. Snap the submarine walls (A, B) into the bases (C, D). Snap the mirror spinner (Y) onto the periscope on the right submarine wall (B).

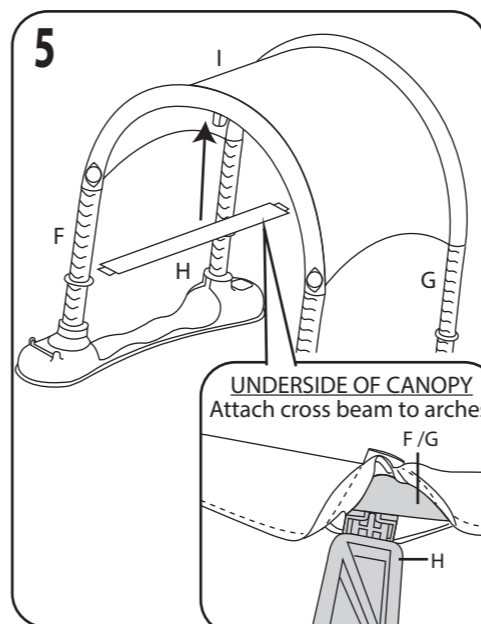

3. Snap the propeller spinners (J) onto the sides of the submarine walls.  
NOTE: Propellers cannot be removed once installed.

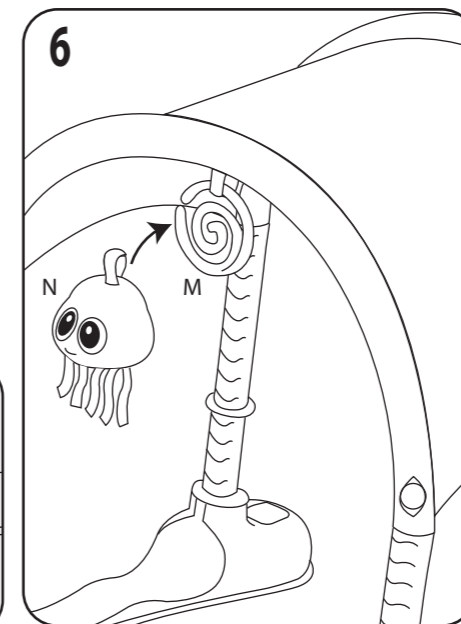

## TUNNEL ASSEMBLY

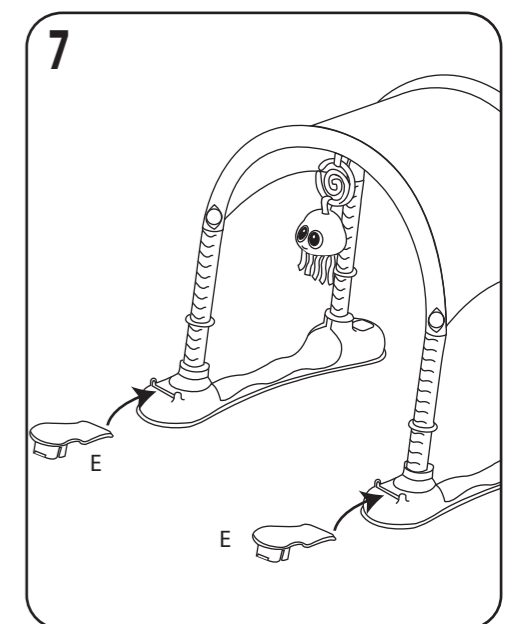

4. Snap the arches (F, G) into the tunnel bases (K, L), matching the half circle and full circle arch bottoms with openings on the tunnel bases.

5. Attach the cross beam (H) to both arches (F, G) under the canopy (I).

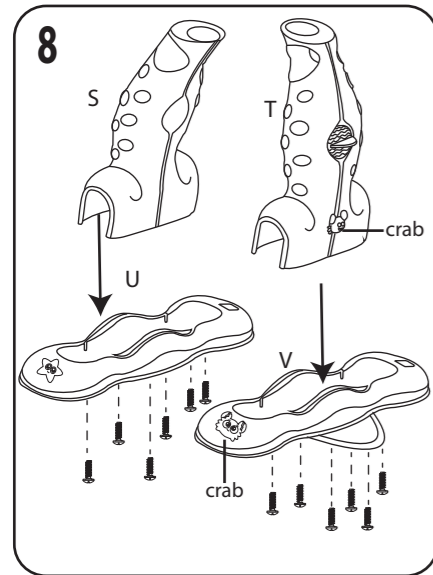

6. Slide the curly ring (M) through the loop on the front of the canopy. Then, slide the loop on the hanging jellyfish (N) over the bottom of the curly ring.

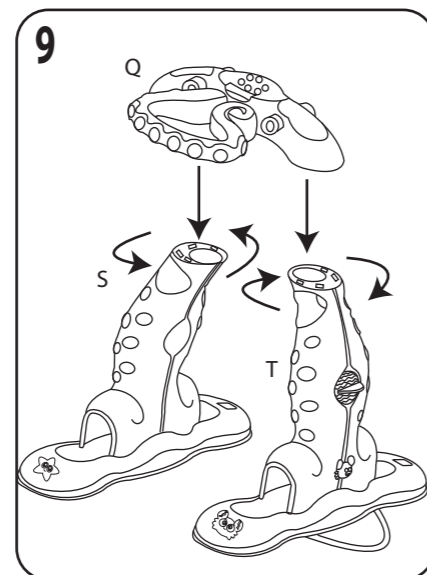

7. Snap two connectors (E) onto the front of the tunnel bases.

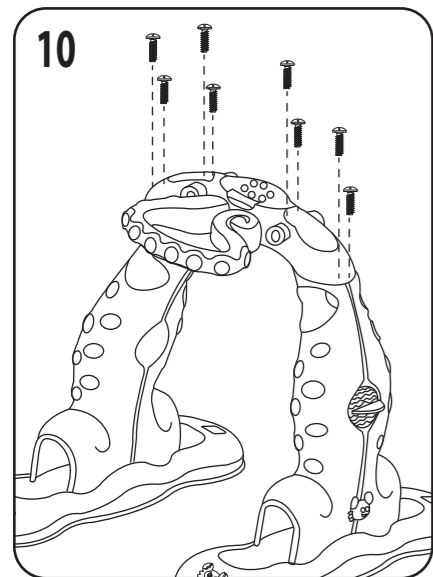

## OCTOPUS ASSEMBLY

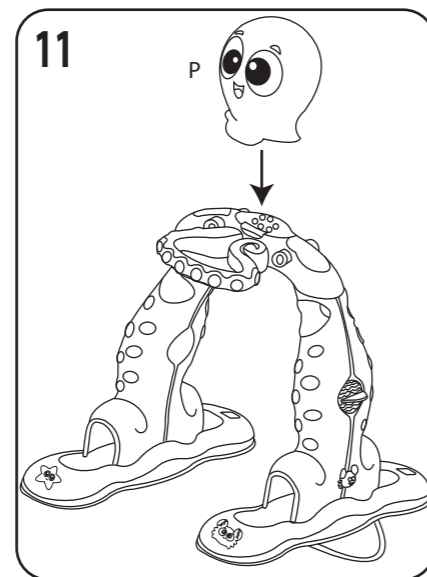

8. Snap the octopus legs (S, T) into the octopus bases (U, V) and secure each leg with 6 screws (W). Hint: Match the crab on the base to the crab slider on the leg. Do the same for the starfish to make sure the legs and bases align.

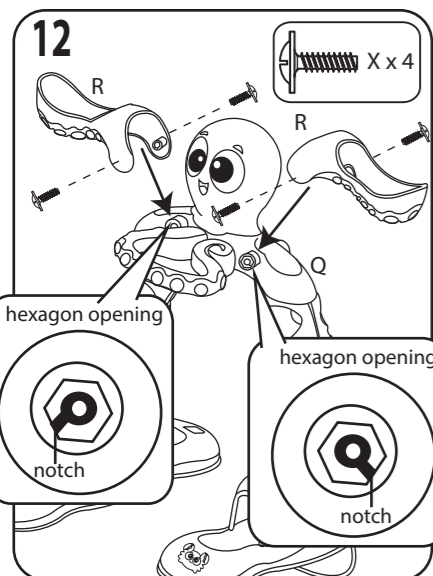

9. Fit the pegs on the octopus legs into the openings on the octopus handle (Q). Twist the legs to lock them in place.

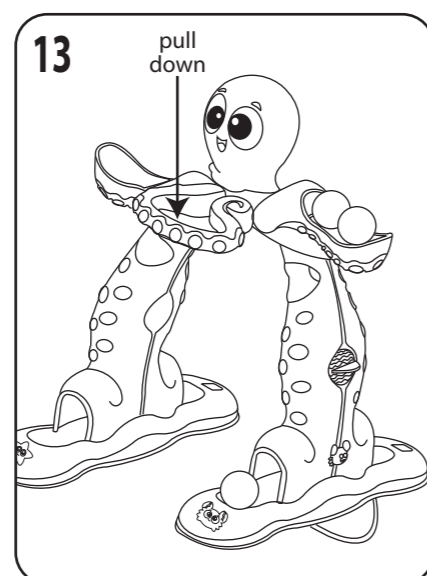

10. Secure the handle to the legs with eight screws (W).

11. Snap the octopus head (P) into place.

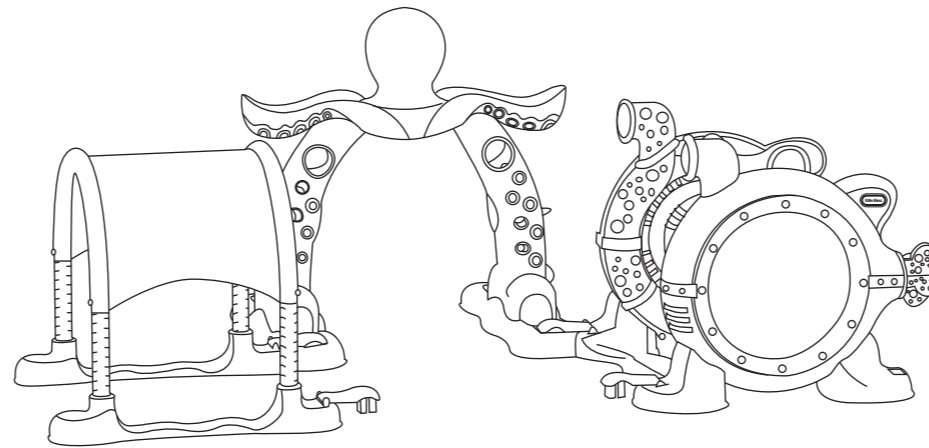

12. With your finger, turn the hexagon openings on the front of octopus handle (Q) to the positions shown above. Then, snap the octopus arms (R) into place, and secure each arm with two screws (X).

13. Move the switch under the octopus handle to low volume or high volume to hear fun sounds! Place balls (O) in the octopus arms, pull down on the handle and watch the balls drop into the bases! (See "BATTERY INSTALLATION" for switch location.)

## ADVENTURE COURSE

Configure the course multiple ways by attaching each section with the connectors.
